## ENGLISH LANGUAGE

*Test-takers found the Language Section lengthy. This was because of excessive number of RC Passages. With the idea of sectional cut-offs, the students had to attempt more questions in this section. Overall, the toughness of the section was not a problem.*

## QUANTITATIVE APTITUDE AND REASONING

*Some students did complain about the toughness of the Reasoning section, while almost every student agreed to the fact that Quantitative aptitude was very easy and manageable. There were no major surprises in either of these two sections. The overall break-up of questions from various topics in this section has been provided on the first page.*
